

AI export sales rep

Handle inquiries, find materials and prepare quotes in one shared sales workflow. Keep your team focused on the last mile of every deal.

Six connected stages, from inquiry to after-sales

01	02	03	04	05	06
Discovery	Solution design	Quotation	Order confirmation	Fulfilment	After-sales

Multilingual conversations

Buyer conversations with Chinese or English staff translations; demo documents in Chinese, English and Spanish.

Configurations, quotes and PIs

Prepare quotes and pro forma invoices from your product and pricing rules, with revision and file records.

Sales follow-up

Prepare personalised follow-ups for staff confirmation and sending through activated channels.

Product materials and media

Find relevant specifications, photos, videos, catalogues and operator guides.

Requirements and teamwork

Keep requirements, conversation context and tasks together, with team assignment, review and takeover.

Product use and after-sales

Answer product-use and support questions; involve your team when verification or action is needed.

Rinee does the work. Your team makes the decisions.

Your team sets pricing, concessions and follow-up rules and can take over anytime. Agreed approvals apply to key quotes and files. Deals, payment and fulfilment stay with your team.

Start with a demo, then review and setup

01 · Demo

Try buyer questions and see the conversation and tools in action.

02 · Materials review

Review product knowledge, approved materials and pricing rules.

03 · Train and start

Configure products, business rules, permissions and required channels.

About 14 days with complete materials; 1–2 months if they need work. Timing follows our review.

How fees work

One-time custom setup; a free AI allowance, then usage billing. Success fees apply after buyer payment to orders handled by Rinee. Add-ons and exact fees are agreed in the contract.

Book a demo to discuss your sales workflow

WeChat: Gdstjy_20

rinee.ai/en/book-demo/

The interactive demo uses fictional idronee products in a shared workspace and requires an account. Company channels and industry-specific design are scoped per project.
